

AUTUMN

TUNDRA BUGGY DAY TOURS

Autumn Tundra Buggy® Day Tours are the best and safest way to view the majestic polar bear in its natural environment. This excursion will include expert interpretation in the Churchill Wildlife Management Area about wildlife and the magnificent ecosystems surrounding the subarctic environment of Churchill. You will have the opportunity to explore the open tundra while your driver discusses the effects of tides, currents and ice formation on the polar bear. Other wildlife you may spot includes arctic hare, fox, gyrfalcon, snowy owl and ptarmigan. Autumn tours start in early October and run through to mid-November.

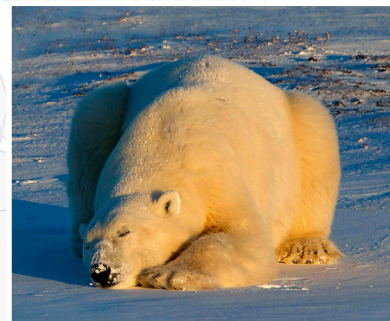

Guests will be picked up from their accommodation between 7:30 and 8:00 am and transferred to the Tundra Buggy Launch area where we will board a Tundra Buggy for a full-day excursion. Lunch and refreshments will be provided. At the end of the tour guests will be transferred back to Churchill and dropped off at **Fifty Eight North - Home of the Tundra Buggy** around 5pm.
